The community overwhelmingly supported the vision approving a \$1.66 Billion Bond

54 • THE INDIANAPOLIS JOURNAL | Election 2008 | WEDNESDAY, NOVEMBER 5, 2008 | BREAKING NEWS/INVESTIGATOR

COLUMBUS BOND ISSUES

City keeps up winning streak on to-do list

Projects include streets, bike trails, cleanups

By Robert Vitale
of the staff writers

Columbus has the better part of it made, in some millions to improve its streets, sidewalks, park improvements and other projects.

How much of it? At \$1.66 billion, it's the largest completed, though, depends on the money. Although voters rejected it in a decisive 50-49 vote, passed yesterday with approval of its bond issues, officials said.

They'll only know when the city really can repay.

"The measure was a winning one," says 60 percent of the vote in a runoff election last night, extending a string of 30 consecutive winning bond issues dating to 1983.

"I am proud that our residents understand we have to continue to invest in our city for it to prosper," says Mayor Michael B. Coleman.

Coleman said voters said they wanted to see the city's economic growth and keeping city budgets on track.

"I am proud that our residents understand we have to continue to invest in our city for it to prosper." Mayor Michael B. Coleman
